## New name, same player

2011. April 29. [expansion](#), [Real Management](#), [real estate](#),

**Managing more than 30 real estate objects in all over Hungary and primarily known for letting and operation of the Duna Tower Office Building and the network of the Family Center strip malls, this company meanwhile has been an active participant on the Hungarian real estate market since twelve years.**

Founded in 1999, the enterprise took part in the early economic expansion of the nineties, experienced the outstanding phase of residential and retail real estate developments, but also the challenging years of the late economic crunch. By continuously adjusting to the current market needs, it dealt with the development of retail, office and domestic real estates.

Currently, the company offers the complete span of services in the real estate sector: valuations, consultancy, real estate development, property acquisition, obtaining of permits, renting, sale of residential and other real estate objects, investment consultancy and operation management.

This made a name change necessary, as so far, out of "historical" reasons, the term "Üzemeltetés" (operation) in the company name indicated only one of the above mentioned activities. At the time of the foundation, several different enterprises were launched with similar names, specializing on the main fields of development and activity (for example Real Management Ingatlan Kft., Real Management Lakópark Kft.). Real Management Üzemeltető Kft. was the one covering the Middle-Eastern European region and carrying on the operation of real estates, and in parallel participating actively in the development of new investments.

Reacting to the new market requirements and according to the scope of activities pursued for years, from April 2011, the new company name is Real Management Ingatlantanácsadó Kereskedelmi és Szolgáltató Korlátolt Felelősségű Társaság, in short Real Management Kft.

The success of the fully Hungarian-owned company is based on stringent professional commitment: the employees' continuous development through attendance of permanent or temporary trainings, national or international conferences and professional events are being expected and supported. Since 2004, the company commands of the ISO quality management qualification and in 2005, received the award "Real Estate Manager of the Year". Its commitment to quality has been appreciated further by becoming member of the Royal Institution of Chartered Surveyors (RICS – [www.rics.org](http://www.rics.org)).

In spite of the difficult economic situation having emerged in 2008, developments had not had to be stopped: in 2010, Tesco and Family Center Vác could be handed over with 100% tenancy coverage, as well as the Aldi discount grocery store next to Family Center Győr. For the years to come, similar objects shall be opened in the following cities, among others: Budapest, Debrecen, Kecskemét, Tata, Szekszárd, Salgótarján and Oroszlány. Real Management Kft. continuously produces new ideas and plans for further investment locations and places great emphasis on efficient operation of existing properties (Duna Tower, Family Center, Spar and Interspar, Tesco, Aldi, Penny) and on maintaining its strong position on the Hungarian real estate market.
